

Date: June 18, 2020

From: Seabreeze Management Team

Here's an update on what happening at Seabreeze:

Opening for the Season. An opening date for Seabreeze has not yet been set. We appreciate the governor's measured plan to gradually and safely reopen New York, and understand his phased approach to REIMAGINE NY. We recognize that we fall into Phase 4, along with others in the sectors of arts, entertainment & recreation, and will continue to work with state and local officials to determine our opening date.

COVID-19 Plan. The health & safety of our guests, and our staff, continues to be our #1 priority. We are in the process of completing our COVID-19 safety plan. Our team has been reviewing best practices being used around the world, through our network of parks and the global industry association IAAPA. When the time comes, the park will be fully compliant with established CDC and NYS guidelines using solutions such as sanitization, social distancing, use of masks and more.

We look forward to the time when we can safely bring our fulltime staff back to work to prepare the park for the season. Summer job interviews have been conducted, and planning for the season continues. We hope to be able to open in a timely fashion, and will work diligently to provide a safe, fun-filled experience for families in our area.
