

Date: February 17, 2021
From: Seabreeze Management Team
Subject: Statement about Permission to Open the Park

The management at Seabreeze is pleased to hear that New York has granted permission for amusement parks in the state to open. We hope to receive and review the detailed guidelines from Albany in the next few weeks. Our team is ready to go, and we look forward to opening for the season in May. We're excited to once again be able to provide outdoor summer fun to the families of Rochester and Upstate NY.
